

## Our Community Needs Your help!!

Habitat for Humanity is building wheelchair ramps for people in need in our community. They are going to break the projects up into stages, "Pre-builds" and "Installation Days". On the Pre-build days they will be building as much of the wheelchair ramps as possible then taking them over to the homes on the Installation Days and installing them.

On the Pre-build days they need about 4 Volunteers to help build and then on the Installation Days they need about 5 Volunteers to help us install them at the home.

If you are interested in Volunteering please fill out this [Release Form](#), bring it with you to the location, and contact the SVVAR office at (928)282-5409 or email [info@svvar.com](mailto:info@svvar.com) with the time and date that works for you.

June 23 = Pre-builds (7 am to 11 pm)  
June 29 & 30 = Pre-builds (9 am to 12 pm)  
July 1 & 2 = Installations (9 am to 2 pm)
