

## Coming on 2/15/2018 to Flexmls Web: Add Videos & Virtual Tours to Incomplete Listings

A frequently requested feature, the ability to add links to Videos and Virtual Tours to **Incomplete listings**, is here. With this improvement, you'll be able to add all photos, documents, videos, and virtual tours to a listing before it goes live, so once you add it to the MLS, all of the information will already be available.

**Remember, Videos and Virtual Tours must be unbranded (no brokerage or agent names, phone numbers or any other contact information.)**
