NAR Supports:

- Reauthorizing and gradually strengthening the NFIP so it is sustainable over the long run;
- Encouraging the development of private market options to offer comparable flood insurance coverage at lower cost than NFIP;
- Providing federal assistance to high-risk property owners, including guaranteed loans, grants and buyouts in order to build to higher standards and keep insurance rates affordable;
- Provide fair flood insurance rates that better reflect the property's flood risk;
- Improving flood map accuracy, so fewer property owners have to file expensive appeals.
