

HOW TO PRINT LISTING INPUT FORMS FROM FLEXMLS

The following forms will be removed from zipForm: Residential Input Form, Vacant Land Input Form, Commercial/Industry Input Form, Fractional/Timeshare Input Form, Multi-Family Input Form, and Rental Input Form.

Since changes and additions to the MLS have been needed on an ongoing basis, zipForm changes could not be made quickly enough to keep current.

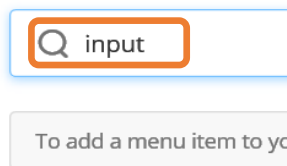

We are pleased that completely up-to-date listing input forms can be printed directly from Flexmls. You can print out a blank form by following these instructions.

To print out a blank form,

1. Log in to Flexmls
2. Click on Menu

3. Type Input in Search field

4. Click on Input Forms

5. Choose the form you want to print and click Print. Or click Settings and make changes to the way the form prints.

Printable Listing Input Forms

Choose a property type:

- Residential
- Rental
- Business Opp
- Commercial/Industry
- Multi-Family
- Vacant Land
- Fractional/Timeshare

- Print possible values for fields with lists

TIMESAVER TIP:

You can “fill the form” in Flexmls by entering a new listing, then save it as incomplete. Print it directly from Flexmls. So, you don’t have to enter this information twice anymore!
